MORTÓRUM

Archæological route

The route begins with the climb up the hill known as Tossal del Mortórum. The first part of the journey takes place on a dirt road between crops and pine forests. Halfway along the route, we can see an old lime oven.

Later, the dirt road turns into a trail, and after climbing to the top of the hill, we reach the settlement of Tossal del Mortórum, where we can visit the remains of homes and streets, most of which date from the 7th and 6th centuries B.C.

From the settlement, the trail leads to the Mortórum burial mound. These ruins belong to a structure that was used as a tomb during a large part of the second millennium B.C.
